① Learning Outcomes

@ Instead of connecting statically we are connecting default connection.

ⓑ we can defaultly connect unconnected devices here.

② @ procedure: First we configured all end-devices routers.

ⓑ Instead of connected all unconnected devices via default configuration.

③ Output:

once all set up is done. ping PC0 to P₃ or P₂.

> ping 40.0.0.10

This shows the packet of data sent and received via router.

④ This makes complete Network ready.
